- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of proposed collection:

This request for a new information collection will allow ECA/P/V to conduct a survey to provide data not currently available. The survey is designed to assess the effectiveness of the YTYA Program in achieving its stated goals and objectives, and assess the outcomes of this two-way, bi-lateral exchange program that included 235 young Turkish and young American participants from 2009 to 2011. This study is authorized by the Mutual Educational and Cultural Exchange Act of 1961, as amended (also known as the Fulbright-Hays Act) (22 U.S.C. 2451 et seq.). The survey will be sent electronically to be completed via web survey to all program participants of the years stated above. Data gathered will enable analysis that can potentially be used to design similar bi-lateral exchange programs, improve existing programs, and to inform ongoing and future exchange programs in ECA.

Methodology:

The survey and all notifications will be entirely electronic to ease any burden on the participant. The survey will be distributed and responses received electronically using the survey application Vovici.
